“SEE SOMETHING SAY SOMETHING!”

ROBBERY PREVENTION

We have all been told at one time or another to take a moment out of our hectic schedules to enjoy the small things around us... the sunset... dew on the grass.. a child's smile... a loved one's laughter... and of course the sight and smell of beautiful roses. Paying attention to our surroundings is also a key element in robbery prevention

Be Aware

Be Aware of your surroundings and the people around you. Criminals count on you being preoccupied with shopping, banking or getting in/out of your vehicle instead of paying attention to them. Take a moment observe who is in the parking area or close to the building before you exit your car. Does it make sense to walk past someone just standing around?

Lighting

If the area is dark, you can't see if someone is hiding behind shrubbery, trees or other obstructions, At home install additional exterior lighting and keep shrubbery at window still level and trees trimmed to prevent hiding places. Speak with management about inadequate lighting or overgrown shrubbery around your apartment or businesses that you frequent.

Avoid being alone

While walking, do not take short cuts though wooded or isolated areas alleys, and dark, poorly lit areas. Plan your route. If the area is unfamiliar to you, consider walking with a friend or traveling by car. If approached by a stranger, maintain the distance of an arm's length. Project a no-nonsense attitude and quickly walk away. Move with confidence and stay alert!

Being followed

If you think you are being followed, cross the street, walk quickly or run to a busy store, restaurant, gas station, or lighted house

If a car is following you, turn and run in the opposite direction. If you suspect that you are being followed while driving, don't drive home!

Go to the nearest police station, fire station or business. Blow your horn to draw attention to your vehicle while driving up to the location

If robbed, stay calm and don't resist! Attempt to get a good description of your attacker and call police immediately.

NOTHING THAT YOU CARRY ON YOUR PERSON IS WORTH YOUR LIFE!

BURGLARY PREVENTION

Burglars go through neighborhoods looking for easy targets. During the day they see uncut lawns, stuffed mailboxes news papers piled up, and valuable items. These conditions act as clues to burglars that “this home” is an easy target. At night they see darkened houses or ones with the same light on for the same length of time every night. Again these are signals to burglars that “this home” is an easy target. The best way to stop the crime in your neighborhood and to reduce the chance that the crime of burglary will affect you.

Don't be a temptation to a thief

Put lawn equipment, bikes, grills and garden tools away. Never leave a note saying you are gone on the door

Locks

Get the best. No lock is 100% burglar proof, get advice from a lock smith to find the best fit for your home. Change locks if you lose your keys

Outside of the house

Have adequate lighting, trim trees and shrubs to prevent a burglar from hiding in your yard or breaking in without being seen.

Windows

Most windows can be pinned for security. Some windows come with security locks, USE THEM!

Alarms

An Alarm system is an excellent way to have home security as it provides peace of mind, especially while you are away from home.

Remember, if you are going to be out of town take advantage of the Montezuma Police Department's free house check service. To activate a house check call the police department before you leave and request a house check. Officers patrolling your zone will monitor your residence while you are away.

CHURCH SAFETY

We hear the phrase often about the “good old days”... one of the things that is definitely different today are incidents of crimes involving churches. We encourage you to take proactive steps to reduce the opportunities for criminal encounters to occur on your church grounds

Exterior Security:

- Install additional lighting in parking lots and entryways if area are poorly lit.
- To prevent hiding places, keep the shrubbery trimmed away from doors and windows.
- Install solid wood or sheet metal faced doors
- Check all windows for defective locking devices for replacement or repair.

Key Control:

- Maintain an accurate key distribution list and check with the recipients periodically to identify lost or stolen keys
- Consider changing locks every 3-5 years and reissue keys
- Create a user form to track who is in the church and list the responsible key holder. Ideally, one person should open and close the church to eliminate need for excessive keys being distributed.

Church Safety Team:

- Ask neighborhood residents and businesses to join you in establishing a community watch..
- Form a safety team to assess the overall security of the church (call Chief Eric Finch)
- Designate safety monitors to check on the church periodically.

Neighborhood Watch

ARE YOU IN A GOOD NEIGHBORHOOD?

Being a good neighbor is the primary reason that neighborhood watch programs work!

Good neighbors concerned about that delivery man or an unfamiliar car driving slowly through the neighborhood will stop and take notice.

Good neighbors meet their neighbors and exchange vital information for emergency purposes.

THE NEIGHBORHOOD WATCH PROGRAM...

Works! It strengthens the relationship between the community and the police, while providing a cost effective method to reduce crime!

A daily part of neighborhood living, not series of meetings. The basic premise of the watch program is You watch my house and I watch your house.

Teaches the resident(s) about proactive strategies and techniques in the fight against crime.

Creates an awareness among residents to assist in the prevention of criminal activity in their communities.

Helps build community pride and provides the mechanism for residents to address other neighborhood concerns.

SENIORS BEWARE!

SCAM ALERT!

There are dishonest people pretending to be Social Workers, agency representatives or church volunteers so that they can get inside your home and steal your personal information, such as credit cards, money and other valuables. Please Follow these simple tips.

- **Do not let strangers in your home!**
- **Don't judge a book by its cover- well dressed people commit crimes!**
- **If you have not called or signed up for social services, free groceries or medical assistance, do not let a stranger convince you that you need their services.**
- **If you have called for services, check the person's identification before they enter your home. Ask them to press the ID card against the window or slide it under the door.**
- **DO NOT TRUST A CHAIN LOCK; IT CAN BE EASILY BROKEN WITH ENOUGH FORCE!**
- **Never let anyone know that you live alone or are at home alone.**
- **As soon as a stranger appears, call a trusted neighbor and ask them to watch your home. Remain on the phone with them, until the stranger leaves.**
- **WHEN IN DOUBT, CALL 911!**

THESE ARE SOME OF THE LATEST SCAMS:

- **A woman states that she is a social worker and needs to give you a hearing test. When you turn away from her she grabs your valuables or you discover items missing after she has left.**
- **A woman pretending to be a church or charity worker brings you a box of free groceries and steals your valuables. When you open your purse to show her some identification, she grabs your purse and runs out the door.**

Remember: These scams may involve criminals of any race or gender and may include individuals working alone or as part of a team.

VEHICLE SAFETY

So you've finally found a parking place for your car,
but did you remember to....

- Remove all valuables from the seats and/or floor area BEFORE arriving at your destination?
 - Avoid parking on deserted streets?
 - Report suspicious activities to the police or parking attendant?
 - Check your vehicle/ tag when you return?
-

HAVE YOU CHECKED YOUR TAG/DECAL LATELY?

Many criminals count on you never noticing that your decal
or tag is missing, until they have left the scene.

- When was the last time you actually walked around your vehicle to check your tag decal? Most people can honestly say "almost never".
- Checking the exterior of your vehicle should be part of your daily routine, whether your car is parked in your driveway or in the parking lot!
- Running into the gas station or the store for a moment? check your tag when you return to your vehicle
- Do you know your tag and/or decal number? You should carry the information in your wallet for a quick reference.
